QCGC Research's mission is to develop the best standard of care for women experiencing gynaecological cancer.

This includes finding causes for and preventing gynaecological cancer or finding better treatment options to improve the quality of life of women affected by gynaecological cancer.

We depend upon financial support from the community. Every single gift, whatever the size, makes an important contribution to our breakthrough research.

Caring for women with gynaecological cancer

In Memoriam

Your special gift to QCGC Research today in memory of Sylvia will enable us to continue our work for generations of women to come. It will give new hope to those women affected and their families.

It is a wonderful way to honour the memory of a special person and an everlasting gift that could benefit all women.

Thank you sincerely
for your thoughts & generosity at this time.

Professor Andreas Obermair
Director of Research
