

# SPECIAL EDITION

COVID-19 Online Information Session

## Keeping women with gynaecological cancer informed during COVID-19, Part 2

Wednesday 22 April, 8.00 AM AEST (Brisbane)

Professor Monika Janda

### Chairs

Professor Andreas Obermair

Zoom code: <https://uqz.zoom.us/j/686724012>

Meeting code: 686 724 012

The impact of COVID-19 is being felt all over the world. But how does it affect women and their families being treated for gynaecological cancer? QCGC Research has enlisted a team of Australian and international experts to present a series of Zoom webinars to provide gynaecological cancer patients with up-to-date information/advice on COVID-19.

Have your questions answered! Submit them to [e.capaldi@uq.edu.au](mailto:e.capaldi@uq.edu.au) by Monday 20 April.

### Topics and guest speakers

#### COVID-19: Where are we now and where are we headed?

Interview with Professor David Paterson  
UQ Centre for Clinical Research & Royal Brisbane and Women's Hospital.

#### Hopes and expectations for the COVID-19 vaccine

Professor Paul Young  
Head of School - Chemistry and Molecular Biosciences, The University of Queensland

#### Patient-survivor perspective on life in the USA during COVID-19

Conversation with Mary (Dicey) Scroggins  
Director of Global Outreach and Engagement, International Gynecologic Cancer Society (IGCS)

#### Practical advice and exercises to help keep you well

Professor Sandi Hayes  
Griffith University

*This webinar will be broadcasted on Zoom and recorded for those that cannot connect at that time. You can access Zoom and watch the webinar on your computer, mobile phone or tablet. You can also dial in via telephone to listen (voice only). Instructions can be found [here](#).*
